

System Kits for Clinical Chemistry Analyzers

Proven

Customized Design for Optimized Performance

- Large and growing veterinary specific menu for routine and special chemistries
- Liquid, ready to use reagents with extended shelf life for optimal convenience
- Applications optimized for consistently high quality results
- Flexible, bar-coded packaging to fit varying open architecture chemistry systems
- Bulk container packaging available with easy pour over for maximum cost effectiveness

DiaSys

USA

Proven Commitment to Quality:

With over 25 years of innovation, DiaSys develops and manufactures reagents which meet the highest standards for consistent quality

DiaSys Diagnostic Systems has been at the leading edge of innovative reagent development for over two decades. We are the world leader in the development of liquid, ready to use products with extended room temperature stability. Reagent packaging can be configured to meet the varying needs of different open system applications. Our proprietary reagents and optimized applications assure the most cost effective and highest quality of results time after time. Quality you can count on. To us, the proof is in the results!

Menu

Alanine Aminotransferase (ALT/GPT)

Albumin (ALB)

Alkaline Phosphatase (ALP)

Amylase (AMYL)

Aspartate Aminotransferase (AST/GOT)

β -Hydroxybutyrate (BHUT)

Bicarbonate (HCO_3)

Bilirubin Auto Direct (DBIL)

Bilirubin Auto Total (TBIL)

Blood Urea Nitrogen (BUN)

Calcium (CA)

Chloride (CL)

Cholesterol (CHOL)

Creatine Kinase (CK)

Creatinine (CREA)

Glucose (GLU)

Gamma-Glutamyl-Transferase (GGT)

Iron (FE)

Lactate (LAC)

Lactate Dehydrogenase (LDH)

Lipase DGGR (LIP)

Magnesium (MG)

Non- Esterified Fatty Acids (NEFA)

Phosphate (P)

Potassium (K)

Sodium (NA)

Total Thyroxine (T4)

Total Protein (TP)

Triglycerides (TRIG)

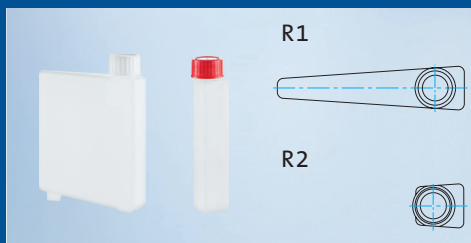

Unsaturated Iron Binding Capacity (UIBC)

Uric Acid (UA)

System Kits

Bottles Designed to Fit:

Hitachi 917,
Modular P,
Beckman Coulter
AU series, ADVIA
1650/1800/2400,
Abbott Architect
series,
Dirui CS series

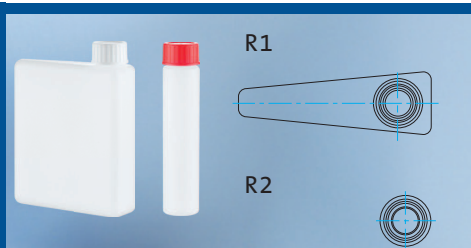

Hitachi
704/717/902/
911/912

Hitachi 704/717/
902/911/912/917,
Modular P,
Beckman Coulter
AU series,
ADVIA 1650/1800/
2400, Abbott
Architect series,
Dirui CS series

Hitachi
911/912

Bulk Reagents

800mL/200mL Bulk Container Packaging
available for pour over into any size reagent
bottles
